Dear Proficiency testing scheme participant

Organochlorine pesticides in water proficiency testing scheme

The NMISA is planning a proficiency testing scheme (PTS) for the measurement of organochlorine pesticides in water in February 2013.

The scheme will be marketed directly to the participants by the National Metrology Institute of South Africa (NMISA) in accordance with ISO/IEC 17043 (2010): Conformity assessment – general requirements for proficiency testing.

Attached please find the PTS description, NMISA customer form and PTS registration form. Please complete both customer and registration forms should your laboratory be interested in participating in this scheme. A quotation will then be provided to you.

The cost for this scheme will be R 1 500.00 (0% VAT) excl. delivery fees. Kindly ensure that the NMISA is on your supplier's list so there are no delays in delivering the samples. The registration deadline is 18th February 2013.

Yours sincerely

Dr Maria Fernandes-Whaley
Section Head
Organic Analysis Laboratory

Ms Jayne de Vos
Director
Chemistry Division
